

WORLDWIDE FISTULA FUND

HEALING WOMEN, RESTORING LIVES

Dear Friends and Supporters,

It has been an incredible month for the Worldwide Fistula Fund. Nicholas Kristof's article, "[Saving the Lives of Moms](#)" in *The New York Times*, brought unprecedented attention to our organization and the work we do. We thank you for your support of this important mission.

As a small organization, we are working diligently to adequately thank our new donors. If you require additional acknowledgment to the emailed or mailed tax receipt you should have received, please let us know.

Additionally, we understand that everyone has different preferences when it comes to being contacted by non-profit organizations. If you donated online, our website did not accurately capture that preference. We send an occasional email newsletter and annual mailing to our donors updating them on our work in Niger. If you do not wish to receive these emails or mailings, you may unsubscribe to this email at the bottom of the page or reply to this email stating your preference and you will not receive any further communication from us. We appreciate your understanding that your initial preference may not have been noted.

Thank you again for your generosity and support. You are making a difference.

Sincerely,
Mark Shaker
Executive Director
Worldwide Fistula Fund
