

WORLDWIDE FISTULA FUND
HEALING WOMEN, RESTORING LIVES

May 23 was International Day to End Obstetric Fistula

Spring, with its promise of renewal, is not only a good time to appreciate the ways in which Worldwide Fistula Foundation (WFF) works to help women suffering from fistula, but also a time to celebrate the women who have suffered and can now return home fistula free. At the Danja Fistula Center in Niger, we are working hard to give as many women as we can the celebration of spring and rebirth, because it is a duty we must give every woman regardless of wealth, race or social standing. Our goal is not only to repair a fistula but to restore a woman's spirit when it had been cruelly taken from her.

Dress Ceremony at Danja Fistula Center

There is hope. There is motivation. There are those of us who are fighting to help. The above video is a celebration of the joy and happiness that can be brought to a woman by repairing her fistula and breathing new life into her. This was taken at WFF's Danja Fistula Center in Niger. Join WFF and the international community in the inaugural International Day to End Obstetric Fistula and help us give more women a chance to return home without having to be embarrassed or worrying about an injury they did nothing to cause. Help us end fistula and celebrate the rebirth of a woman's life.
