TERREWODE Heals More Women With WFF Grants!

WFF awarded TERREWODE **an additional \$40,000** grant in July to provide **services to 84 women** currently on the wait list at the organization in Uganda!

"We don't want a single woman told to 'wait her turn' if it can be helped," said WFF Executive Director Soja Orłowski.

Founder Dr. Lewis Wall is back in the United States after attending a TERREWODE Hospital Board of Governors meeting in Uganda.

The hospital is on track to open in 2019, and Dr. Wall said it's going to be a *striking upgrade in national capacity to care for women with fistula.*

"There are many challenges still before us, but the excitement of seeing [Executive Director Alice Emasu's] dream come true makes it all worthwhile."

[Read the rest of Lewis' blog](#) about his trip to Uganda to learn why the hospital is committed to hiring locally and why having a dedicated fistula hospital will be transformative in Uganda.
